

2026 FAMILY RESOURCE GUIDE SPONSORSHIP

Disability Connection is currently producing an updated version of the 2023 Family Resource Guide. This is the only Guide produced to distribute directly to families with financial insecurities. DC has produced ten widely-utilized Resource Guides since 2013 that have become the most popular resource tools supporting the 6 southern counties Mississippi.

This Guide will include over 150 organizations that provide services in the six southern counties of Mississippi. The Guide is a valuable tool for nonprofits and an efficient way to network organizations that provide valuable services for these families. An interactive version will be available to view and download on our website, www.DisabilityConnection.org. The Disability Connection website currently hosts the 2023 Family Resource Guide, 2025 MS Coast Community Resource Guide, and the 2021 TRACK Guide (a transition guide to advocate for community knowledge) which supports students with disabilities transitioning out of school.

Sponsorships will be used for the printing of **5000** copies and costs associated with the on-line, downloadable version. Copies will also be distributed to and through local schools, nonprofit and government entities, social workers, and public libraries. **Sponsors receive recognition in the printed copy, in the on-line downloadable version, on social network and e-newsletters.**
